

Isadru Santos

Software Engineer

Hi there, I'm Santos. With 3 years of experience as a data scientist and full-stack developer, I excel at swift data analysis and the seamless development of mobile apps and websites.

Work Experience

Web Developer 2020-2021

Become a Web Developer for a recess project. I was in charge of building landing page for the project

Mobile App 2021-2022

Become a mobile Developer for my internship project, I create a cypto price tracker a cross platfoam app with flutter.

Data Science & ML 2022-2023

Become a Data Scientist for our final year project, I did explanatory data analysis and trained an AI model for forecasting food prices in Uganda markets

Lead Designer 2023 - present

Become a no Code Developer, I created a no code website for South Sudan's best Artist Taban Peter Pal using webflow, developed my Resume with Canva.
